Heading :I know that Virginia Roberts Giuffre never had sex with Alan Dershowitz

I know that Giuffre never has sex with Dershowitz because I was the first person to interview her. I interviewed her for the Daily Mail in early 2011, nine years after she left Jeffrey Epstein. She told me about the men who Epstein trafficked her to . She did not include Dershowitz in that group.

Then in August of 2001, Virginia emailed me , asking me to remind her of the names of the men “ J.E. sent me to.” I responded that although Dershowitz was not among them (“no proof “ that he is a “pedo”) , “you probably met him when he was hanging out w JE.” I had to remind Virginia who Dershowitz was: “ he repped Claus von Bulow and a movie was made about that case... title was Reversal of Fortune.” I also wrote that Dershowitz , along with Kenneth Star, had represented Epstein in the deal he received. I advised Virginia that despite the fact that there is no proof he had sex with Virginia, she should put Deshowitz in the manuscript she was writing about Epstein and the men to whom she was trafficked , because he’s a “good name for your pitch,” even as a prominent person who was merely associated with Epstein .

Virginia responded: “I’m bringing down the house with this book.” She did not dispute that there was “no proof “ or even allegation that Dershowitz was among those to whom she had been trafficked.

Virginia followed my advice and put Dershowitz in the book as someone she had seen hanging out with Epstein and “convers[ing] about business.” Although in the manuscript, she named men to whom she had been trafficked and described the sex in detail , she did not claim that she had ever had sex with Dershowitz.

These emails and manuscript led my attorney to write the following truthful statement in a court brief: “Churcher makes no suggestion that [giuffre] had sexual contact with Dershowitz. To the contrary, she states there was “no proof” that he was a “pedo”— which directly contradicts such a suggestion in itself— but only that “ “[Giuffre] probably met him when he

was hanging out with J.E. “.

I stand by my lawyer’s statement : there is no proof or suggestion that Alan Dershowitz ever had any “sexual contact “ with Guiffre. He was merely a lawyer and acquaintance of Epstein who Giuffre once saw conducting business with him.
